ETA for silicone bonded Schüco SG-systems

Dear Mr. Doors,

We are pleased to acknowledge the following:

Momentive Performance Materials is running the EOTA approval program for the combination of the UltraGlaze structural sealants and the Schueco Façade Systems.

As part of the currently running amplification process for the existing ETA-05/0114 for our structural glazing systems Schüco FW50+SG / FW60+SG and AWS 102 we intend to include Momentive silicone products into the above mentioned ETA.

Yours sincerely

Schüco International KG

i.V. Frank Zimmermann
Product Owner Façade Systems

i.A. Edda Heise
Product Manager Façade Systems
